CAREER OBJECTIVE

Motivated Computer Science (Cyber Security) undergraduate at VIT Vellore with a foundation in programming, data structures, and web technologies. Interested in full-stack development and cybersecurity, with a focus on improving technical skills through hands-on projects, continuous learning, and practical experience.

EXPERIENCE

Full Stack Developer Intern | Copter Code - Chennai, IN Jun 2026 –Jul 2026

- Architected a full-stack LMS using React, TypeScript, Node.js, and PostgreSQL/Prisma with 20+ models.
- Engineered a real-time virtual classroom using LiveKit WebRTC, featuring low-latency video streaming, screen sharing, dynamic role permissions, and a collaborative whiteboard.
- Integrated an AI Tutor with multi-turn chat context and automated multi-model fallback cascades to ensure resilient, step-by-step STEM tutoring.

PROJECTS

Network Traffic Analysis for Anomaly Detection

- Built a zero-leakage packet ingestion pipeline using a dual-mode native binary and Scapy parser, extracting 14 stateless structural DNS metrics (Shannon entropy, label depth) to eliminate domain memorization.
- Developed an asynchronous FastAPI and React 18/Tailwind CSS dashboard featuring JWT RBAC, real-time model drift telemetry, SVG threat gauges, and an automated 38-test Pytest suite.

Play Horizon - Arcade Suite

- Developed a buildless React-based single-page arcade platform featuring Sudoku, Neon Snake and QuizMaster with modular component architecture.
- Implemented HTML5 Canvas game mechanics, real-time collision detection, game loops, dynamic scoring and responsive keyboard/touch controls.

CAMFIX

- Developed an end-to-end campus issue resolution web application featuring responsive role-specific dashboards (Student, Technician, Admin), interactive multi-floor campus facility maps, and QR code asset scanning to accelerate maintenance reporting.
- Designed and implemented a modular RESTful backend in Node.js/Express supporting PostgreSQL across 13 relational tables with indexed lookups.

TECHNICAL SKILLS

PROGRAMMING LANGUAGES	FRAMEWORKS & LIBRARIES	CYBERSECURITY & NETWORKING
C, C++, Java, Python, TypeScript	React, FastAPI,Express.js	Network Security, Wireshark
WEB DEVELOPMENT	**DATABASES**	**TOOLS & OTHERS**
HTML, CSS, JavaScript	PostgreSQL, MongoDB, MySQL	Git, GitHub, Docker, Linux

EDUCATION

BTECH - Computer Science and Engineering (Cyber Security) — VIT Vellore | **9.16** | 3rd Year

Senior Secondary (XII), Telangana Board — Sri Chaitanya Junior College | **94.90%** | 2024

Secondary (X), Telangana Board — Geetanjali Olympiad School | **92%** | 2022

Achievements And Certifications

1) Microsoft Certified: Azure Administrator (AZ-104) |
2) AWS Academy Graduate - Cloud Foundations |
3) IEEE ITS Chapter Technical Coordinator

LANGUAGES

• English (Professional working proficiency) • Hindi • Telugu (Native proficiency) • German (Elementary proficiency)
